Creative Habits

LEADING FOR CREATIVE THINKING

The model of creativity and creative thinking that underpins all the activities on **Leading for Creative Thinking** focuses on five key **Creative Habits**.
This framework was developed by the Centre for Real-World Learning at the University of Winchester.

imaginative
- using intuition
- making connections
- playing with possibilities

inquisitive
- wondering & questioning
- exploring & investigating
- challenging assumptions

persistent
- daring to be different
- tolerating uncertainty
- sticking with difficulty

collaborative
- sharing the product
- giving & receiving feedback
- co-operating appropriately

disciplined
- developing techniques
- reflecting critically
- crafting & improving
